

Hope in a UHAUL

Stephen's Backpacks Society successfully filled to the brim a huge U haul Moving Truck with furniture, clothing, baby cribs, Princess Bed with princess sheets, Princess bikes, Kitchen set up, bathroom set up, clothes, living room and dining room and bedroom setups, linens and much more. Three families will feel a little more hope and encouragement in their storm of weathering the loss of their homes burnt to the ground to ashes from Slave Lake.

Our family who relocated to St Albert has been confronted with a second devastation- Mom was rushed into the hospital for emergency surgery yesterday. Our team is going to completely assemble the home for Mom and Dad and a little girl and a baby boy.

When I spoke to the Dad from our St Albert family today he said "You read in the news all of the horrible times people are having. They should be in my shoes today. My wife is in critical condition; she is so weak!" I promised him we would pray for him and his family and help from Airdrie was on its way and in some small way I pray that it brings some hope and encouragement as he weathers yet another tragedy to know we care.

Thanks to everyone for their generous donations, their hard work separating and sorting items and of course the loading team and delivery team to spread a little sunshine to very special families. Special thanks to U Haul for their consistent support to help children and families in need. Thank you God to be able to come together as a community and minister in a small way to these folks.

Stephen's Backpacks Society June 20th Heading to Slave Lake Disaster Families ---Hope in a U-Haul—THANK YOU AIRDRIE!
